2009.09.04

The first two digits of the model number indicate the nominal battery voltage the charger is designed to charge, except for the 604CC, which is a 6-volt nominal charger.

Model numbers which show the 'ACI' prefix are Advanced Chargers brand, also made by Soneil.

Soneil is a dynamic company, continually adding to their product line in response to customer demand. If you are looking for a Soneil or ACI product that is not on our price list, please [contact us](#) for pricing.

* denotes charger not suitable for use in series or parallel connections for charging as described in [Soneil Series and Parallel Charging Note](#) on the subject. (In their most recent version of this note, 2010.03.31, Soneil recommends contacting them before buying chargers to be used in series or parallel)

** The 2408SRF is the new model number for the former 2408CAA/CBA.

Prices and specifications are subject to change by Soneil without notice.

Taxes, shipping, special handling are extra.

Bulk discounts available on orders of 12 or more units of the same model in same shipment.

If you have any questions, [please e-mail for additional information](#).
